Interactive Learning Outcomes Assessments

Immediate, Multi-Tiered Reporting
Each person using the Learning Outcomes platform needs to see something different when they view reports. We’ve made this simple through our multi-tiered reporting structure.

Test results are available immediately upon completion, and the permissions-based, click-through functionality lets users drill down into individual students and teachers, courses, objectives, classes, programs, and campuses.

On the job is too late to find out a graduate is lacking a critical skill or vital knowledge. Your reputation is on the line, and knowing that your students are learning what they need to know – and your teachers are teaching effectively – is fundamental to your success.

Wonderlic Learning Outcomes Assessments are interactive, online exams that test your students’ knowledge and competencies. Developed with the aid and collaboration of employers, educators, accrediting bodies, and programmatic boards, our Learning Outcomes Assessments give you the opportunity to pinpoint gaps and identify issues quickly, before it’s too late.

Advance the quality of instruction. Improve student performance. Increase teacher effectiveness. Align curricula to employer needs.

The Testing Experience
The interactive, timed tests feature audio, 3D animation, video, and imagery to simulate real-life situations while testing key skills and abilities.

At-a-Glance Results
Interpreting reports doesn’t have to be rocket science. We’ve simplified it for you with color coded scores for fast, at-a-glance understanding of the results.

Interactive Learning Outcomes Assessments

Valuable Comparisons
Scores are great – but what does that mean in the real world? Will your students make the cut when looking for a job? Knowing how they stack up to the competition helps you make critical decisions. View scores in comparison to campus, school, and even national averages.

Multiple Choice, Multiplied
The Wonderlic Learning Outcomes Assessments feature a wide variety of item types to really test student learning. Drag and drop, fill in the blank, essay, multi-select, multiple choice, and matching are just a few types of questions your students will encounter.

<table>
<thead>
<tr>
<th>Competencies/Skills</th>
<th>Course Objectives</th>
<th>*Employer Weight</th>
<th>Course Objective % Score</th>
<th>National Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blood Collection</td>
<td>Demonstrate the methods of collecting blood</td>
<td>3</td>
<td>50%</td>
<td>75%</td>
</tr>
<tr>
<td>Blood Collection</td>
<td>Explain the types of collection used in performing a blood draw</td>
<td>2</td>
<td>75%</td>
<td>72%</td>
</tr>
<tr>
<td>Blood Testing</td>
<td>Identify the various types of blood testing</td>
<td>3</td>
<td>60%</td>
<td>81%</td>
</tr>
</tbody>
</table>

Aligned with Employer Needs
Is that skill a must have, should have, or a nice to have? Each question is weighted based on feedback from employers in your industry. Weighting can be customized if you find employers in your area value skills and competencies differently than the national averages.

Simple Test Management
Assigning a test can be done with just a few mouse clicks. Select the class, enter a few details, and it’s done! Creating makeup or retake exams is just as simple.

Features

Online Administration, Scoring and Results
- Tests can be assigned anytime, anywhere
- Tests can be taken from any computer with Internet access
- Results can be accessed anytime, anywhere
- Results are available in minutes

Simple Management Tools
- Easily launch and discontinue exams, assign makeup tests, and allow students to retake a test
- Set test parameters as needed
  - Test name
  - Location
  - Date
  - Time
- Test details emailed to students and faculty immediately upon saving

Customizable Battery of Questions
- Match objectives to your curriculum
- Assign weights for each objective

Multi-Tiered Reporting
- Permissions-based report levels
  - Student Report shows detail and summary for each exam taken
  - Faculty Report shows detail and summary of each course and class; can drill down to the student level
  - Program Report shows detail and summary of each program; can drill down to the course, class, and student level
